

COMD2320

OL15 11310

Introduction to Video
Thursday 6/10/2021

Agenda

- ❖ Discuss our scripts.
- ❖ Guest Speaker
- ❖ Discuss editing homework.
- ❖ Discuss filming your movies.
- ❖ Definitions
- ❖ Vlog Homework

Script Writing Process

Guest Speaker

- ❖ E4/MK, Machinery Technician Third Class
Stephanie Horvat MFA.

Editing Homework

Thoughts on your Movies

- ❖ Ambient Sound: The natural sound of a location. Cars, Birds, etc.
- ❖ Camera Blocking: Plotting the placement and movement of the camera within the scene.
- ❖ Cutaway: A shot, usually a close up of some detail or landscape, that is used to break up a matching action sequence.
- ❖ Intercut: A technique where the editor cuts back and forth between two separate scenes as the play out.
- ❖ Reaction Shot: A shot of someone looking off screen. A reaction shot can also be a shot of someone in a conversation where they are not given a line of dialogue but are just listening to the other person speak.
- ❖ Room Tone: Background sound recorded on set for the purpose of enabling the seamless modification and removal of audio in post production.

Intercutting
